# Primavera P6 Assessment

## TR101 Primavera P6 Planner Assessment

Is your Primavera P6 planner/scheduler competent in using Primavera P6?

Does he/she know how to create and build a project using the Primavera P6 client and/or web tool?

Do you have an opening within your company that requires the skills of a Primavera P6 planner/scheduler? How do you know if this individual is experienced or competent enough to use the Primavera P6 client and/or web tool?

This Primavera P6 Planner Assessment is designed specifically for that. We will provide the delegate with a multiple choice questionnaire that covers both the general knowledge of Project Management as well as the general knowledge on using the Primavera P6 software tool. The delegate will then receive a scope of work/plan that he/she will need to capture within the Primavera P6 tool.

Results of the assessment will be provided to the client and upon successful completion of the assessment a certificate will be rewarded to the delegate.

**Some of the Assessment Areas Covered:**

• Project Management Terminology
• Scope of Work/Plan to Capture in Primavera P6 (Ability to follow instructions)
• New Project Creation
• Calendar Creation
• WBS Creation
• Activity Creation
• Activity Relationship (Predecessor/Successor) Creation
• Lag and Total Float
• Resource Creation
• Resource Assignments & Usage Monitoring
• Critical Path Monitoring
• Baseline Creation
• Project Progress (Updating the Schedule)
• Creating Reports
• Importing & Exporting

**Prerequisite:** TR102 and/or TR106

**Exam Length**: 2 hours 30 minutes
